## Experience Summary:

- Having 11+ years of experience in developing applications based on .NET technologies (Web applications, Windows applications, client interaction, RPA, ETL), Azure APIM.
- Experience in manual testing through all phases of SDLC, debugging.
- Proficient in .Net Technologies using frameworks.
- Proficient in SQL server concepts like stored procedures and Functions.
- Well versed with Software Development Life Cycle (SDLC).
- Working Experience in ETL processing using Talend.
- Working experience in automations using UI Path.

## Work Profile:

- Working as **Senior Software Engineer** for **Microsoft** on payroll of Collabera, Hyderabad from Apr-2022 to till date.
- Worked as **General Mazdoor** in Singareni Collieries Company Ltd, Manuguru from Apr-2019 to Apr-2022.
- Worked as **Senior Project Engineer** in Wipro Technologies, Hyderabad from Sep-2015 to Feb 2019.
- Worked as **Senior Software Engineer** in Pyro Networks Pvt.Ltd, Hyderabad from Feb-2014 to Sep-2015.
- Worked as **Software Engineer** in IIC Technologies, Hyderabad from May- 2012 to September 2013.
- Worked as **Trainee Software Engineer** in Diyos(formerly Globewebsoft), Himayathanagar, Hyderabad from September-2010 to March-2012.

## Educational Qualifications:

- MCA from JNTU, Aurora Engineering College, Bhongir in 2007-10.

## Technical Expertise:

- |                      |   |                                    |
|----------------------|---|------------------------------------|
| • Languages          | : | C,C++,C#,VB.NET                    |
| • Web Technologies   | : | Asp.net, Java script, jquery, HTML |
| • Cloud Technologies | : | <b>Azure (APIM)</b>                |
| • Tool kit           | : | Ajax                               |
| • Database           | : | SQL Server, My Sql                 |
| • Packages           | : | Microsoft office                   |
| • Development Tools  | : | Visual Studio                      |

| • Automation         | : | UI Path                            |

## Projects Profile:

### Project 1:

Title	:	<b>Azure Paas Developer</b>
Role	:	Senior Software Engineer (Developer- APIM)
Organization	:	Microsoft on payroll of Collabera.
Duration	:	Apr 2022 – Till date
Software Platform	:	<b>Azure</b>

### Description:

Microsoft Azure, often referred to as Azure, is a cloud computing service operated by Microsoft for application management via Microsoft-managed data centers. It provides software as a service (SaaS), platform as a service (PaaS) and infrastructure as a service (IaaS) and supports many different programming languages, tools, and frameworks, including both Microsoft-specific and third-party software and systems.

### Responsibilities:

- Provide support to customers on Azure APIM module.
- Involve in customer API deployment issues.
- Provide support to customers using the product.
- Help customers with Azure policies and scripts.
- Assist customers with custom code with C# with regards to API Management.
- Installing and configuring API gateway, onboarding APIs from different environments, Custom policies, SSL, OAuth, JWT, AAD integration.
- Collaborating with cross function teams for configuring and integrating APIM.

### Project 2:

Title	:	<b>SCCL</b>
Role	:	General Mazdoor
Organization	:	Singareni Collieries Company Ltd (Owned by Govt of Telangana), Manuguru.
Duration	:	Apr 2019 – Apr 2022
Software Platform	:	<b>C#.Net, WinForms, Asp.Net. SAP systems, Azure integration</b>

### Description:

The Singareni Collieries Company Limited (SCCL) is a Government coal mining company jointly owned by the Government of Telangana and Government of India.

### Responsibilities:

- Responsibility is limited but not confined.
- Enhancement of existing modules along with Azure APIM integration.
- Cross platform communication for coal loading using mainframe machines and .Net applications.
- Invoicing of stocks and rails invoicing.
- Eway bill generations.

### Project 3:

Title	:	<b>Chevron</b>
Role	:	Senior Project Engineer, Team Lead, Audit Lead, IRM Lead, RPA Lead
Organization	:	Wipro Technologies, Hyderabad
Duration	:	Oct 2016 – Feb 2019
Software Platform	:	<b>.Net, C#.Net, Asp.Net, Sql Server, Talend (ETL), UIPath (RPA)</b>
Client	:	Chevron USA.
Work Location	:	<b>Hyderabad India &amp; Houston USA.</b>

#### Description:

Chevron Corporation is an American multinational energy corporation. One of the successor companies of Standard Oil, it is headquartered in San Ramon, California, and active in more than 180 countries. Chevron is engaged in every aspect of the oil and natural gas industries, including hydrocarbon exploration and production; refining, marketing, and transport; chemicals manufacturing and sales; and power generation.

#### Responsibilities:

- Enhancement of existing modules.
- RPA (UiPath) of redundant tasks for effective usage of resources.
- Requirement gathering for new modules.
- Internal audit of applications regarding application security.
- IRM (Information Risk Management) activities for maintaining application integrity.
- Data management from multiple sources.

### Project 4:

Title	:	<b>Npower</b>
Role	:	Senior Developer
Organization	:	Wipro Technologies, Hyderabad
Duration	:	Dec 2015 – Oct 2016
Software Platform	:	<b>Vb.net, C#.Net, Asp.Net, Sql Server</b>
Client	:	Npower UK.

#### Description:

Npower is a gas supplier in UK, this project is an effort to automate all the manual work, starting from user registration to generating of invoices and billing for both commercial and household accounts.

#### Responsibilities:

- Enhancement of existing modules.
- Automation of manual tasks carried out by support teams.
- Bug fixes and Releases.
- Interacting with clients for requirement gathering and converting into technical specification.

## Project 5:

Title	:	<b>GCWW (Greater Cincinnati Water Works)</b>
Role	:	ETL expert (Talend DI)
Organization	:	Wipro Technologies, Hyderabad
Duration	:	Sep 2015 – Dec 2015
Software Platform	:	<b>Talend ETL Tool, Vb.Net, Oracle, Sql Server, Sybase</b>
Client	:	City of Cincinnati.

### Description:

Processing data dumps from different databases from Sybase, sql server, mysql, csv's, Oracle and excel into oracle, sql Server, My Sql using Talend DI.

### Responsibilities:

- Conversion of functional requirements into technical.
- Guiding Team members.
- Single POC for each operation performed using talend.
- Creating Talend jobs for transferring data
- Performing optimization of jobs and performance monitoring.
- Auto schedules of job created in talend using task scheduler and WinForms.

## Project 6:

Title	:	<b>DAP (Data Analytics and Processing)</b>
Role	:	Developer, Team leader
Organization	:	Pyro networks Pvt. Ltd., Hyderabad
Duration	:	July 2014 – Till Date
Software Platform	:	<b>Asp.Net, Vb.Net , winforms , Talend ETL Tool, Oracle, windows services, OBIEE</b>
Client	:	Bsnl.

### Description:

Processing and merging databases from Sybase, sql server , mysql, csv's and excel into oracle, sql Server, My Sql using Talend and .Net Winforms,ASP.net and windows services.

### Responsibilities:

- Involved in requirement gathering from client.
- Conversion of functional requirements into technical.
- Designed overall project flow.
- Guiding Team members.
- Single POC for each operation performed using talend.
- Designing of database structure.
- Creating jobs and performing auto schedules of jobs created in talend using task scheduler and WinForms.
- Making of Maps on OBIEE.

## Project 7:

Title	:	<b>Eyespot</b>
Role	:	Developer
Organization	:	Pyro networks Pvt. Ltd., Hyderabad
Duration	:	Feb 2014 – Till Date
Software Platform	:	Asp.net, C#.net, Vb.Net , Sql Server 2008
Client	:	tigo (South Africa), Vodafone, ericsson, zte, idea, airtel.

### Description:

This project is meant mainly for mobile network service provider to maintain user data, generate reports, auto schedule of applications, value added service and to maintain network analysis using snmp agent for monitoring system usage and performance.

Eyespot is developed in both win forms and asp.net.

### Responsibilities:

- Designed and developed the application in ASP.NET and C#.NET.
- Developed global methods for accessing databases and common functions.
- Post development documents preparation.

## Project 8:

Title	:	<b>MSSLMS (Mississippi State Land Management System)</b>
Role	:	Designing and Developing
Module	:	School District, Lease and Timber
Organization	:	IIC Technologies Pvt. Ltd., Hyderabad
Duration	:	May 2012 – September 2013
Software Platform	:	Asp.net, C#.Net, vb.Net, Sql Server 2008, Ajax Toolkit
Client	:	Smart Data Strategies, UNITED STATES

### Description:

This project is meant for Management of Land (16 section) for the state of Mississippi. The application provides a set of users to enter different type of information related to all the sections involved in a School District. The public users can view the information. Different stages are maintained, from adding the Land details to Lease Management of a Land

- Lease Management sub-module enables the users to manage the School District information and the 16th sections under the School District, to manage the acquisitions and disposals of various lands under 16th Section. The lease management module helps the user to manage the lease and the financial data related to lease.
- The 16<sup>th</sup> Section Lands Management module is depended on Mississippi Forest Commission (MFC) for the timber cruise data. MFC sends the timber cruise data in a file which will be uploaded to the 16<sup>th</sup> Section database. At the time of a timber sale, the timber cruise data from MFC will be used for comparison with

the timber cruise information which is conducted by SOS for a better analysis and determining the best value for the timber product sale.

### Project 9:

Title	:	<b>Intelligent Project Manager (IPM)</b>
Module	:	Geographical System, Marine Solutions, Payroll Management System (HRMS)
Organization	:	IIC Technologies Pvt. Ltd., Hyderabad
Duration	:	Oct 2012 – September 2013
Software Platform	:	Asp.net, Vb.Net, C#.Net, SqlServer 2008, Ajax Toolkit
Client	:	IIC Technologies (In house)

#### Description:

This project is meant for Management, Tracking and Scheduling of Projects undertaken. This project is being developed as a mini-ERP to provide solution in Geospatial Solutions [GS], Marine Solutions [MS] and Human Resources management.

- GS & MS modules are intended to provide the solutions for Task Allocation, Scheduling & Management of work packages in different groups of GS & MS respectively.
- HRMS provides a complete Payroll management solution for the firm.

#### Responsibilities:

- Responsible for coding and unit test.
- Implemented role-based security in the application.

### Project 10:

Title	:	<b>Visual Class</b>
Organization	:	Diyos (Globewebsoft), Hyderabad
Duration	:	Sep 2010 – Mar 2012
Software Platform	:	Asp.net, C#.Net, SqlServer 2008, Ajax Toolkit

#### Description:

Visual Class is an effort to provide the content of APSERT State Board syllabus in a digital, multimedia form. Completely with exhaustive tests and assignments, Visual Class is the ideal solution for students who are keen to clear their concepts and perform better in their exams.

- Register
- Subscribe
- Video Classes
- Online Cd's and Books.

#### Responsibilities:

- Developer responsible for coding entire application in ASP.NET and C#.NET

- Created database tables and written stored procedures for querying data from the database.
